**I am not certain how
this option differs.
Do they need a Profile?
Can they send / receive email?**

Add Members to your group's mailing list. Mailing list users cannot use your group's web experience unless they link their email ID to their Yahoo! profile. Use the regular invite flow to add members to your group to use the web experience with features like sharing files, photos, create and participate in polls.

Dealing with SPAM Source

- Occasionally SPAM will be received from a member of the Group.
- Usually it happens when the member's email has been hijacked.
- Here are some measures that can be taken to protect other Group Members until the email problems can be fixed:
